INDEPENDENT AUDITORS' REPORT

Board of Directors Capital Securities Investment Corporation

We have audited the accompanying statement of financial condition of Capital Securities Investment Corporation as of December 31, 2010 that you are filing pursuant to rule 17a-5 under the Securities and Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to attain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Capital Securities Investment Corporation as of December 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

The accompanying notes are an integral part of this financial statements.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Organization – Capital Securities Investment Corporation (the "Company") was incorporated in the state of Illinois on April 26, 1990. The Company is registered with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority (FINRA). The Company's principal business activity is the sale of securities.

Securities Transactions - Commission revenue and related expense arising from securities transactions are recorded on a trade date basis, which is the same business day as the transaction date.

Concentrations of Credit Risk - The Company is engaged in various brokerage activities in which the counterparties primarily include broker/dealers, banks, other financial institutions and the Company's own customers. In the event the counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

In addition, the Company's cash is on deposit at one financial institution and the balance at times may exceed the federally insured limit. The Company believes it is not exposed to any significant credit risk to cash.

Cash Equivalents - For purposes of the Statement of Cash Flows, the Company has defined cash equivalents as highly liquid investments, with original maturities of less than three months that are not held for sale in the ordinary course of business.

Depreciation - Depreciation of furniture and equipment was provided for using the straight-line method over five year periods.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events - The Company evaluated all significant events or transactions that occurred through the audit report date, the date these financial statements were available to be issued.

NOTE 2 - FAIR VALUE MEASUREMENT

FASB ASC 820 defines fair value, creates a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly.

NOTE 2 - FAIR VALUE MEASUREMENT - (Continued)

• Level 3 inputs are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.)

Level 1 inputs have been applied to value cash and cash equivalents and \$30,737 included in receivable from broker/dealers, as stated on the statement of financial condition. No valuation techniques have been applied to all other assets and liabilities included in the statement of financial condition. Due to the nature of these items, all have been recorded at their historic values.

NOTE 3 - INCOME TAXES

Effective from the date of its incorporation the Company has elected S Corporation status for federal income tax purposes. Income taxes are therefore the responsibility of the individual shareholder of the Company.

The Company accounts for any potential interest or penalties related to possible future liabilities for unrecognized income tax benefits as interest/other expense. The Company is no longer subject to examination by tax authorities for federal, state or local income taxes for periods before 2007.

NOTE 4 - RELATED PARTIES

Through common ownership, the Company is affiliated with Capital Securities Training Company.

In addition to its securities business, the Company provides advisory services as a registered investment advisor under the assumed name of Capital Securities Advisory Services.

NOTE 5 - NET CAPITAL REQUIREMENTS

As a registered broker/dealer and member of the Financial Industry Regulatory Authority, the Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 1500%. At December 31, 2010 the Company's net capital and required net capital were \$26,301 and \$5,000 respectively. The ratio of aggregate indebtedness to net capital was 231%.

NOTE 6 - OFF BALANCE SHEET RISK AND CLEARING AGREEMENT

The Company enters into various transactions involving derivatives and other off-balance sheet financial instruments. These financial instruments include exchange-traded and over the counter options. These derivative financial instruments are used to meet the needs of customers.

In addition, the Company's customers may sell securities that they do not currently own and will therefore be obligated to purchase such securities at a future date.

Since the Company enters into the forgoing transactions involving derivatives and other off-balance sheet financial instruments solely for the benefit of its customers, the Company does not bear any of the credit or market risk of those customers, with the exception of the risk to the Company should its customers fail to honor their obligations related to the foregoing derivatives and other off-balance sheet financial instruments, as mentioned below.

In order to facilitate securities transactions, including the aforementioned transactions, in June 2005, the Company entered into an agreement with another broker/dealer (Clearing Broker/dealer) whereby the Company forwards (introduces) customer securities transactions to the Clearing Broker/dealer, fully disclosing the customer name and other information. The initial term of the agreement was three years and is automatically renewed for one year terms, unless terminated. The processing and, if applicable, any financing pertaining

NOTE 6 - OFF BALANCE SHEET RISK AND CLEARING AGREEMENT - (Continued)

to the introduced securities transactions is performed by the Clearing Broker/dealer. The customer account is therefore maintained and recorded in the books and records of the Clearing Broker/dealer on the Company's behalf. In consideration for introducing customers to the Clearing Broker/dealer, the Company receives commissions and other consideration, less the processing and other charges of the Clearing Broker/dealer. As part of the terms of the agreement between the Company and Clearing Broker/dealer, the Company is held responsible for any losses arising when the customers introduced by the Company to the Clearing Broker/dealer fail to meet their contractual commitments pertaining to the purchase, sale and possible financing of securities transactions. The Company may therefore be exposed to off-balance sheet risk in the event the customer is unable to fulfill its contracted obligations and it is necessary for the Clearing Broker/dealer to purchase or sell the securities at a loss. The Company's exposure to risk would consist of the amount of the loss realized and any additional expenses incurred pertaining to the transaction or other customer activity.

Under the terms of the aforementioned agreement, the Company is prohibited from entering into a similar agreement with any other broker/dealer without first obtaining written consent from its clearing broker/dealer. The Company is also required to maintain a deposit of \$30,000 with the Clearing Broker/dealer. This amount is included in receivable from broker/dealers on the statement of financial condition. Termination charges and other items are included therein.

NOTE 7 - LEASE

The Company leases its office space on a month-to-month basis. Rent expense for the year ended December 31, 2010 was \$64,140.

CAPITAL SECURITIES INVESTMENT CORP. SUPPLEMENTAL SIPC REPORT DECEMBER 31, 2010

Board of Directors Capital Securities Investment Corp.

In accordance with Rule 17a-5(e)(4) of the Securities and Exchange Act of 1934, we have performed the procedures enumerated below with respect to the accompanying Schedule of Assessment and Payments [General Assessment Reconciliation (Form SIPC-7)] to the Securities Investor Protection Corporation (SIPC) for the year ended December 31, 2010, which were agreed to by Capital Securities Investment Corp. and the Securities and Exchange Commission, Financial Industry Regulatory Authority, Inc., SIPC and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934, solely to assist you and the other specified parties in evaluating Capital Securities Investment Corp.'s compliance with applicable instructions of the General Assessment Reconciliation (Form SIPC-7). Capital Securities Investment Corp.'s management is responsible for Capital Securities Investment Corp.'s compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose. The procedures we performed and our findings are as follows:

- 1) Compared the listed assessment payments in form SIPC-7 with respective cash disbursement records entries and copies of the checks noting no differences;
- 2) Compared amounts reported on the audited Form X-17A-5 for the year ended December 31, 2010, as applicable, with the amounts reported in Form SIPC-7 for the year ended December 31, 2010, noting no differences;
- 3) Compared any adjustments reported in Form SIPC-7 with supporting schedules and working papers, including the trial balance and the general ledger detail, noting no differences; and
- 4) Proved the arithmetical accuracy of the calculations reflected in Form SIPC-7 and in the related schedules and working papers, including the trial balance and general ledger detail, supporting the adjustments noting no differences.
- 5) Compared the amount of any overpayment applied to the current assessment with the Form SIPC-7T on which it was originally computed noting no differences.

We were not engaged to, and did not conduct an examination, the objective of which would be the expression of an opinion on compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and the use of the specified parties listed above and is not intended to be and should not be used by anyone other than the specified parties.
